Introduction

The *2020 Joint Chairmen's Report - FY 2021 Operating and Capital Budgets* (Pages 26-27) requires the Governor's Office of Crime Prevention, Youth, and Victim Services (previously known as the Governor's Office of Crime Control and Prevention¹) to submit a report to the budget committees by November 1, 2020, as it relates to the federal Victims of Crime Act (VOCA) funding.² Specifically, and pursuant to the *2020 Joint Chairmen's Report - FY 2021 Operating and Capital Budgets* (Pages 26-27), the report should include:

1. Total active VOCA grant awards as of January 1, 2020, including grant number, implementing agency, project title, start date, end date, amount of award, jurisdiction of implementation, and the brief description/abstract of the grant;
2. For each VOCA grant award in item (1) and for any other VOCA grant awards made subsequently, a description of whether for the federal fiscal year beginning October 1, 2020, the award was continued, awarded, or otherwise funded, including the grant number, implementing agency, project title, start date, end date, amount of award, jurisdiction of implementation, and the brief description/abstract of the grant; and
3. Identification of any decrease or other change in victim services funding between items (1) and (2), the justification for each grant award change, and the impact of the continuity of crime victim services.

The *2020 Joint Chairmen's Report - FY 2021 Operating and Capital Budgets* (Pages 26-27) also restricts the expenditure of general funds, in the amount \$250,000, until the Governor's Office of Crime Prevention, Youth, and Victim Services submits the required report.

In accordance with the *2020 Joint Chairmen's Report - FY 2021 Operating and Capital Budgets* (Pages 26-27), this *Report on the Continuity of VOCA Services* provides a follow-up to a report, titled *Victims of Crime Act (VOCA) Funding Requirement Report*, that was submitted in December 2018.³

Background

Established by the Victims of Crime Act of 1984, the Crime Victims Fund (Fund) is a major funding source for victim services throughout the nation. Millions of dollars have been deposited into the Fund annually from criminal fines, forfeited bail bonds, penalties, and special

assessments collected by U.S. Attorneys' Offices, federal U.S. courts, and the Federal Bureau of Prisons. To date, Fund dollars have always come from offenders convicted of federal crimes, not from taxpayers. Previous legislation expanded the sources from which Fund deposits may come.

Through the Fund, the U.S. Department of Justice, Office for Victims of Crime (OVC) awards formula and discretionary grants to States each year “to enhance the delivery of crime victim services throughout the Nation.”⁴ This includes VOCA assistance funds which are typically awarded on a competitive basis “by the State to local community-based organizations that provide direct services to crime victims.”⁵ VOCA assistance funds are multi-year awards with varying allocations from one federal fiscal year to the next. As illustrated below, and on behalf of the State of Maryland, the Governor’s Office of Crime Prevention, Youth, and Victim Services (Office) received an increase in VOCA assistance funds between FY 2014 and FY 2018, and then a decrease between FY 2018 and FY 2020 (*please note the project dates listed below*).⁶

Victims of Crime Act Grant Program

Pursuant to the *2020 Joint Chairmen’s Report - FY 2021 Operating and Capital Budgets* (Pages 26-27), the Office must submit a report to the budget committees by November 1, 2020, as it relates to the allocation of grant funds from the federal VOCA grant program; any changes in victim services funding between January 1, 2020 and October 1, 2020; and the subsequent impact on the continuity of crime victim services. The primary purpose of the VOCA grant program is to improve the treatment of victims of crime by providing victims with the assistance and services necessary to aid their restoration after a violent criminal act, and to support and aid

them as they move through the criminal justice process.⁷ Funds are used to assist subrecipients in providing direct services to crime victims. In August 2018, the Office released a *Notice of Funding Availability (NOFA)* to invite eligible applicants to apply for grant funds.⁸ The Office also provided an opportunity for subrecipients to receive continuation funding, from the initial one year award (for a period of October 1, 2018 - September 30, 2019), to a second year of level funding (for a period of October 1, 2019 - September 30, 2020), provided that the program remained in good standing and without substantial changes. In June 2020, the Office worked closely with victim services providers to identify needs for victims of crime in Maryland, and for ways to reduce the administrative burden on victim service providers in response to the unprecedented challenges caused by the Coronavirus Disease 2019 (COVID-19) pandemic. As a result, the Office postponed a fully competitive application process, instead, announcing a third year of modified continuation funding (for a period of October 1, 2020 - September 30, 2021) in which funding would equal the level of grant-funded personnel as of October 1, 2019 plus an additional 10% in funds, provided that the current subrecipient is in good standing and the program is demonstrating positive outcomes.⁹

Continued Funding (2)

In April 2020, the Office was notified that Maryland's FY 2020 VOCA allocation was reduced by 26% when compared with the FY 2019 award.¹⁰ Because of this, coupled with the impact of the COVID-19 pandemic, the Office announced a plan to provide current VOCA sub-recipients with a third year of modified continuation funding, which would begin on October 1, 2020, for the federal fiscal year. To access the third year of funding, sub-recipients were required to submit an abbreviated application¹¹ by August 14, 2020, through the Office's Grants Management System (GMS).

A total of 122 eligible organizations submitted applications for the third year of VOCA continuation funding, beginning October 1, 2020. All eligible organizations that submitted an application were provided with continuation funding (*as illustrated below*).

*Awards are pending at the time of this report.

**An exception to the third year continuation formula was provided for this state agency providing statewide housing assistance to victims.

Two agencies did not apply for FY20 continuation funding: The Salvation Army National Capital Area Command and the Frederick County State's Attorney's Office.

Change in Victim Services Funding (3)

As noted above, the Office provided current regular cycle VOCA subrecipients with a third year of modified continuation funding. Regular cycle VOCA sub-recipients that received an award on October 1, 2019 were invited to apply for a third year of continuation funding beginning October 1, 2020, equal to the level of grant-funded personnel in the current award budget plus an additional 10% in funds, provided the sub-recipient was in good standing and the program was demonstrating positive outcomes. It is important to note that grant-funded personnel could be in either the personnel or contractual budget categories, and personnel covered by matching funds were not included. Additionally, sub-recipients were allowed to apply for funding to support any allowable budget items, up to 110% of their current grant funded personnel funding. This

provided sub-recipients the flexibility to retain personnel or shift resources to address another important need.

The Office also informed sub-recipients that the total request in each application could not exceed 110% of grant funded personnel costs in the current VOCA award. In addition, the Office provided sub-recipients with several guidelines regarding the third year continuation funding (*as illustrated below*):

- Calculations for personnel related expenses are based on original budgets awarded on October 1, 2019.
- The maximum award amount for each sub-recipient is the amount of funding as of October 1, 2019. To this end, VOCA grants that funded 100% personnel are not eligible for 110% of their second year award amount.
- VOCA sub-recipients with no personnel related grant expenses as of October 1, 2019 were instructed to email the Office's VOCA Program Manager to determine their third year award amount.
- Sub-recipients who felt they were disproportionately impacted by the modified third year continuation strategy were instructed to email the Office's VOCA Program Manager to request additional funding.

The Office also encouraged applicants to look towards sustainability, and included this recommendation in the grant solicitation (*as illustrated below*):

Sustainability: As Federal funds continue to fluctuate and decrease, the Office strongly recommends that sub-recipients develop a sustainability plan that incorporates collaboration with other partners. The Governor's Office of Crime Prevention, Youth, and Victim Services encourages crossover, collaboration, and partnerships amongst direct service providers to sustain continuity of operations.

Impact on Continuity Services

A total of 122 eligible organizations submitted applications for the third year of VOCA continuation funding beginning October 1, 2020. As illustrated in the charts above, which compare individual grants, 44 sub-recipients (36% of VOCA sub-recipients) received level funding as of October 1, 2020 compared to October 1, 2019, while 79 subrecipients (64%) received a decrease in funding for the same time period.

It is important to note that the Office provided an exception to the criteria above. Specifically, any sub-recipients who felt that their agency would be disproportionately impacted by the modified third year of VOCA continuation funding were instructed to email the Office's VOCA Program Manager. Requestees were also asked to provide the following:

- A list of grant funded items and associated amounts that could be removed from their budget without significantly impacting the continuation of services;
- The minimum VOCA FY 2020 award amount that the agency could receive without disproportionately impacting the continuation of services (not to exceed the FY 2019 award amount); and
- A detailed justification of the impact that would occur if the agency does not receive the minimum FY 2020 award amount requested, and how this would impact direct services, to include the specific programs or services that would be cut or eliminated.

Approved requests received funding equivalent to the minimum amount the agency identified for the continuation of services without a disproportionate impact.

Conclusion

The Office will continue to coordinate with the Maryland State Board of Victim Services, the Governor's Family Violence Council, victim service coalitions, and other service providers for the administration of VOCA funds to support comprehensive and consistent services to crime victims in the State of Maryland. Additionally, the Office is reviewing technical assistance and other guidance provided by the Office for Victims of Crime. This coordination and technical assistance will continue to be essential provided the level of federal VOCA funds fluctuates in the years ahead as it has done historically.
